BILL SUMMARY:

Senate Bill 383 would require the employer to make weekly payments of compensation and to provide medical treatment ordered by the commission during an appeal of an award of the commission. Interest would accrue on any unpaid portion of an award at the rate of 12.5% during the appeal.

EXPLANATION OF IMPACT:

Workers' Compensation Commission

The Commission reports this Bill will have no impact on the General Fund of the State or on Federal and/or Other Funds.

State Accident Fund

The Fund estimates this Bill will increase workers' compensation claims costs that will translate into an increase in premiums (paid by governmental entities) due to an expansion of benefits. Premiums are paid by state agencies from State General Funds as well as Federal and Other Funds. The specific costs are difficult to estimate due to a number of other factors that impact the ultimate cost of workers' compensation claims.

Second Injury Fund

The Fund reports this Bill may have a minimal cost to the Uninsured Employers' Fund due to an increase in workers' compensation claims costs.

LOCAL GOVERNMENT IMPACT:

Local government would be impacted to the same extent as State agencies.
